

## What went well

- We made good progress on all front
- The login and signup pages are working quite well
- Tree page and routing between parks
- Meeting attendance
- We figured out how to post information on database via frontend

## What could've gone better?

- Dividing the work
- Having full understanding who is working on what

## What do we want to try next?

- Focus on finishing everything
- Handing in an a complete project
- Fix all the bugs we are experiencing

## What puzzles us?

- Retrieving information from the database
