What went well

- The scrum meetings
- The development of the HTML/CSS Front End
- The structuring of the database
- Meeting attendance

What could've gone better?

- Not oversleeping for the Scrum meetings
- Communication
- Making significant progress

What do we want to try next?

- Dedicating more time to the project
- Connecting Front-end with Back-end
- Finishing up the front-end

What puzzles us?

- What happened to Talgat
- Time management between tests and project
